Society Spotlight: Ukraine Genealogy Group

The Ukraine Genealogy Group--National Capitol Region (UGG-NCR), headquartered in Canada's capital city, Ottawa, caters to all professional and hobbyist genealogists who are particularly focused on Ukrainian research, including related areas of Eastern Europe and elsewhere. Founded in 2000, its aims include promoting the study of genealogy and history, and encouraging the preservation and transcription of relevant documents and records. The Ukrainian Genealogical Group exists to help people get together in order to share their experiences and help on another with their research problems. The Group has a Library/Resource Center in Ottawa available to members, who also receive a monthly newsletter and annual report. They hold eight meetings annually with guest speakers who are subject matter experts in varying aspects of Ukrainian genealogy. FEEFHS Conference 2021

The dates of the **2021 FEEFHS Conference** have been moved to the following week, **August 9-13, 2021**.

We hope to have mostly the same program and speakers as we had planned for 2020, insofar as they are available. We anticipate that the vast majority will be. If not, then we will find other qualified speakers to provide the same great instruction.

We wish all of you good health and well being during this time, and hope to have you join us in 2021 for help in discovering your Central and East European ancestors!
